4th-year Applied Mathematics student at INSA Toulouse, specialized in Data Analysis, Machine Learning, Computer Vision, Deep Learning and AI models.

EXPERIENCE (INTERNSHIPS, JOBS, VOLUNTEERING)

- | | |
|--|----------------------|
| Artificial Intelligence Intern - Dedienne Aerospace, Toulouse (31) | 2026 |
| ▪ Development of an AI pipeline to automate the analysis of mechanical drawings | |
| Treasurer of the MASE student association (Mouvement d'Actions Solidaires Etudiantes) | 2023 |
| ▪ Treasurer and member of the association (organizing outreach rounds for homeless people) | |
| One-month shop-floor internship - Continental Automotive France, Toulouse (31) | 2023 |
| ▪ Operator on an electronic components production line | |
| Supermarket Employee - Intermarché, Seysses (31) | 2022 and 2025 |
| ▪ Shelf stocking during 2 summers | |
| Tennis Instructor - Tennis Club de Seysses | 2019-2022 |
| ▪ 2h/week every Wednesday for 3 years: coaching children at the club's tennis school. | |
| ▪ Federal instructor diploma obtained in January 2021 after a 60-hour training course. | |

EDUCATION

- | | |
|--|------------------|
| INSA Toulouse Engineering School | 2022-2027 |
| ▪ Main courses: Optimization, Statistical Modeling, Data Analysis, Machine Learning, PDEs, Signal Processing, Deep Learning, Time Series, HPC. | |
| Colorado School of Mines - Denver, United States (exchange semester) | 2024 |
| ▪ Courses completed: Mathematical Modeling, Numerical Analysis, Advanced Probability and Databases. | |

PROJECTS

- | | |
|---|-------------|
| Software Development | 2025 |
| ▪ Development of a social network (Git, Agile methodology, SQL, Python, CI/CD, testing) | |
| Modeling Project | |
| ▪ Modeling the movements of a population of individuals in different environments (ODEs, PDEs, LaTeX, Python) | |
| Research Project | 2026 |
| ▪ Image classification and generation (diffusion models, CNN, Computer Vision) | |
| Data Analysis Project | |
| ▪ Exploration of Parcoursup admissions data by institution (PCA, MCA, MFA, k-means, data preprocessing, Random Forest, Boosting...) | |
| Machine Learning Project | |
| ▪ Cardiovascular Risk Prediction using Machine Learning (Boosting, Random Forest, Deep Learning, SVM, KNN...) | |

ADDITIONAL INFORMATION

- Languages: French (native), English: C1, Spanish: A2
- Tools & languages: Python (LangChain, PyTorch, Scikit-Learn, Pandas...), R, C, LaTeX, GitHub, Excel

INTERESTS

- Sports: running, tennis, weight training, rugby
- American cinema, economic and political news
